

**Powerflor ramps & railings set in place
Wood spacers used so standard ramps can be
used and avoid making custom width ramps to
fit a non-standard width entryway.**

Powerflor ramps and railing are set. Perimeter panels are cut to fill the void around the ramp and railing. Carpet will be installed when completed.

Powerflor ramps and railing install complete.
Carpet is being applied to finish the entryway.

Ramp & railings complete.
Carpet will be trimmed and a
transition strip will be installed.
